

Top River City Diesel Insights

By Sophia Gonzales

River, (ultimately from latin ripa, bank), any natural stream of water that flows in a channel with defined banks It rises south of the equator and flows northward through northeastern africa to drain into the mediterranean sea. A river is a large, natural stream of flowing water When rain falls on the land, it either seeps into the ground or becomes. A river forms from water moving from a higher elevation to a lower elevation, all due to gravity Nile river, the longest river in the world, called the father of african rivers
