

Who Makes Mini Cooper: A Practical Overview

By Tyler Torres

This transition will not only bolster the UK's role in mini's electric vehicle. The hatchback/hardtop mini was the first model of the new generation mini, introduced in 2001, and was back then known as simply mini. The j01 represents the next generation of the mini cooper electric. Market started in the 1960s with the importation of tiny cars manufactured by British Motor Corp. Since acquiring the mini brand in 1994, BMW has played a major role in transforming mini from a nostalgic British icon into a premium compact car with advanced engineering and improved performance. The German automaker acquired the iconic British car business in 1994.
